INDEX TO VOLUME XXXVIII, 1926.

PAGE

Abstracts from the German Press, Lieut. Comdr. E. W. Burrough, U. S. N., and E. C. Magdeburger ... 893
Abstracts from the German Technical Press, by E. C. Magdeburger ... 318
Aircraft Engine Development, Trend of, by E. E. Wilson, Commander, U. S. N ... 130
Alloys of Steel, Light ... 761
Association Notes ... 225, 482, 775, 969
Asturias, R. M. S. P. Co.'s Motor Liner ... 353
Aviation, Naval ... 955
Ball, H. J., Reduction Gears in U. S. Naval Vessels ... 789
Banquet, American Society of Naval Engineers, 1926 ... 331
Battery, Primary, Converts Coal Into Electricity ... 756
Boiler Explosion S. S. *Romanstar* ... 375
Boilers, High-Pressure Water-Tube, for Marine Purposes ... 362
Boilers, Water-tube, Three-drum type, fitted in H. M. Navy, Some Recent Modifications to ... 369
Book Reviews ... 222, 477, 770, 968
Brierly, R. C., Ray Rotary Fuel Oil Burner, Test on a Marine Scotch Boiler ... 271
Bubble Sextant, Aircraft, Type A, by R. C. Parker, Commander, U. S. N ... 301
Burrough, E. W., Lieut. Comdr., U. S. N., Abstracts from the German Press ... 893
Cathcart, William Ledyard, Obituary ... 473
Chromium Alloys Resist Chemicals ... 960
Chromium, Plating with, for Wear ... 964
Cierva Flying Machine ... 187
Charlton, A. M., Comdr., U. S. N., Description and Trials of U. S. S. *Holland* ... 777
Coast Guard Cutter for Arctic Service ... 343
Compressors, Centrifugal, for Diesel Engines ... 154
Condensers, Surface, Practical Problems Affecting the Working of ... 176
Corrosion of Ships' Hulls and Fittings, Care and Protection Against, Capt. J. A. Furer (C. C.), U. S. N ... 825
Corrosion, Tarnishing and Tinting of Metals ... 763
Diesel Engine, America's Largest Four-stroke-cycle Ends Tests ... 730
Diesel Engines, Centrifugal Compressors for ... 154

PAGE

Diesel, A French High Speed 953
Dinger, H. C., Capt., U. S. N., Development of the Wright Air Cooled Aviation Engine 856
Diphenyl Oxide Bi-Fluid Power Plants 940
Discussion, "Theory of the Impeller," E. F. Doty 337
A. Hollander 720
"High Temperature Insulation," J. M. Weaver 723
Eight-Thousand-Ton French Cruisers, New 916
Electric Propulsion of Ships 346
Excess Air in Boiler Furnaces, Limiting Factors in Reducing 741
Flotilla Leaders, New French 919
Flying Boat Development, Trend of, by H. C. Richardson, Commander (C. C.), U. S. N. 231
Fox, John F., Some Experiences with Torsional Vibration Problems in Diesel Engine Installations 695
French Cruisers, New 8000-Ton 916
French Flotilla Leaders, New 919
Fuel Oil Burner, Ray Rotary, Test on a Marine Scotch Boiler, by R. C. Brierly 271
Fuel Oils, Graphic Relation of Specific Gravity to Viscosity in the case of, by G. B. Vroom, Lieutenant Commander, U. S. N. 119
Furer, J. A., Capt. (C. C.), U. S. N., Care and Protection Against Corrosion of Ships' Hulls and Fittings 825
Gas and Metal Arc Welding as Applied to Aircraft Construction, Comdr. H. B. Hird, U. S. N. 879
Gillette, C. S., Lieutenant Commander, U. S. N., High Temperature Insulation 3
Guy, Albert E., Theory of the Impeller 17
Halligan, John, Jr., Rear Admiral, U. S. N. 1
High Efficiency Steam Installations for Ship Propulsion with Special Reference to the Question of Auxiliary Machinery 930
High Pressure Pipe Joints at Langerbrugge 959
High Pressure Steam Installations 737
High Pressure Turbine Steamer *King George V* 912
High Speed Diesel, A French 953
High Temperature Insulation, by Lieutenant Commander C. S. Gillette 3
Hill Tailless Aeroplane 753
Hird, H. B., Comdr., U. S. N., Gas and Metal Arc Welding as Applied to Aircraft Construction 879
Holland, U. S. S., Description and Trials, Comdr. A. M. Charlton, U. S. N. 777
Hydrogen as a Cooling Medium for Electrical Machinery 151
Impeller, Theory of, by Albert E. Guy 17
King George V, High Pressure Turbine Steamer 912

PAGE

Launching Arrangements of H. M. Ships *Nelson* and *Rodney* 356
Least Squares, Theory of, Practical Naval Applications of, by Karl F. Smith, Commander, U. S. N 254
Light Alloys of Steel? 761
Loss of the U. S. S. *Shenandoah*, Technical Aspects of 487
Lubricating Oils, Selection of, for Working Conditions of Bearing Load, Speed and Temperature, by G. B. Vroom, Lieutenant Commander, U. S. N 289
Magdeburger, E. C., Abstracts from the German Technical Press 318
Maublanc-Lallié Marine Propeller, The 958
Motorships, Experiences with 728
Naval Aviation 955
Naval Construction in 1925 144
Obituary
Rear Admiral Albert B. Willits, U. S. N 469
Commander Walter Albert Smead, U. S. N 472
Passed Assistant Engineer John A. Tobin, U. S. N 473
William Ledyard Cathcart 473
Pipe Joints at Langebrugge, High Pressure 959
Pipes, Steam, for Extra High Pressure and Temperature 950
Plating with Chromium for Wear 964
Pratt & Whitney Wasp Engine 750
Parker, R. C., Commander, U. S. N., Aircraft Bubble Sextant, Type A. 301
Propeller, Marine, Maublanc-Lallié, The 958
Propelling Machinery Development 920
Pulverized Fuel for Marine Boilers 924
Ray Rotary Fuel Oil Burner, Test on a Marine Scotch Boiler, by R. C. Brierly 271
Reduction Gears in U. S. Naval Vessels, H. J. Ball 789
Relation of Specific Gravity to Viscosity in the Case of Fuel Oils, Graphic, by G. B. Vroom, Lieutenant Commander, U. S. N 119
Richardson, H. C., Commander (C. C.), U. S. N., Trend of Flying Boat Development 231
Shenandoah, U. S. S., Technical Aspects of the Loss of 487
Smead, Walter Albert, Commander, U. S. N., Obituary 472
Smith, Karl F., Commander, U. S. N., Practical Naval Applications of the Theory of Least Squares 254
Steam Pipes for Extra High Pressure and Temperature 950
Superheating of Steam, Proposed Method for Automatic 739
Tailless Aeroplane, Hill 753
Theory of the Impeller, by Albert E. Guy 17
Tobin, John A., Passed Assistant Engineer, U. S. N., Obituary 473
Torsional Vibration Problems in Diesel Engine Installations, Some Experiences with, by John F. Fox 695
